

I GST MD ANDIKA BRAMASTRA

Address : Denpasar Barat, Bali, Indonesia

Num : +62852 8079 6347

Email : Bramastraandika@gmail.com

PROFILE

Hello, my name is Bram. I am an enthusiastic and highly motivated individual with a strong interest in Information Technology (IT). I hold a Bachelor's degree in Computer Systems Engineering from the Indonesian Institute of Business and Technology and have gained practical experience in IT support, web development, data management, and technical operations.

I possess basic proficiency in Microsoft Office applications (Word, Excel, etc.), along with strong problem-solving and critical-thinking skills. I am adaptable, detail-oriented, and eager to continuously develop my technical skills and professional experience.

PENDIDIKAN

2019 / 2022 : SMA Dwijendra Denpasar

2022 / 2026 : Institut Bisnis dan Teknologi Denpasar

WORK EXPERIENCE

February - April 2024

Rooftop Denpasar

Worked as a Barista for three months during the university holiday period to gain professional work experience.

- Responsible for preparing beverage orders and handling daily opening and closing operations.
- Managed cashier transactions and coordinated order flow to ensure smooth daily operations.

Freelancer - Data Entry & Cameraman

Worked as a freelance teaching assistant remotely (WFH), handling data entry tasks, while also working as a camera operator for various events with Event Organizer (EO) teams.

- Managed and organized student records using Microsoft Excel and Word.
- Operated cameras during events, ensuring proper camera positioning, angles, framing, and stability throughout the event.

April 2024 - Present

Affiliator

creating promotional content and advertising products in the technology, gadget, and electronics industries. Successfully achieved up to 6 million views on a single piece of content.

- Recorded and produced promotional video content.
- Edited videos using CapCut and performed quality control before publishing.
- Researched and analyzed trending topics and content strategies to increase audience engagement.

June 2022 - Present

Reseller

Started an independent reselling business in 2022, initially focusing on second-hand sneakers (thrifting). Later transitioned into selling second-hand electronic devices and gadgets.

March 2026 - December 2026

Quinos POS

Worked as an IT Staff member at Quinos POS, responsible for managing and maintaining POS systems installed across multiple outlets, including system installation, hardware maintenance, networking, and technical support.

- Performed hardware quality control and inspections.
- Installed operating systems, drivers, and POS software requirements.
- Conducted hardware maintenance for POS terminals, printers, UPS devices, and network equipment.
- Performed hardware and software troubleshooting.
- Managed data entry configurations and company database setup.
- Configured network IP addresses and supported network infrastructure.

PROJECT

Internet of Things

1. Developed an IoT-based monitoring system to measure temperature and humidity, integrated with the Blynk IoT platform. The system can also be monitored and controlled through a custom-built Telegram Bot using commands such as /Suhu, /Start, and /Stop.

2. Designed and developed an alcohol detection device using breath analysis to identify the presence of alcohol in a person's breath. The project was inspired by the need to improve road safety, particularly in Bali, where incidents involving intoxicated tourists driving under the influence of alcohol are a concern. The system was designed based on the concept of a Breathalyzer, a device commonly used by law enforcement for alcohol detection during roadside inspections.

Website Project

Developed several website projects and a personal portfolio showcasing technical skills, web development projects, and professional experience :
